

Transformational Solutions. Exceptional Outcomes.

OVERVIEW

Lakota Federal is an SBA 8(a)-certified company that provides comprehensive environmental and construction services. Lakota Federal is a wholly owned subsidiary of Shee Atiká, Inc., an Alaska Native Corporation (ANC) headquartered in Sitka, AK, with more than 3,400 Alaska Native shareholders. As an ANC, Lakota Federal offers a unique, flexible, and streamlined sole-source procurement option to maximize performance flexibility, mission continuity, and achieve small business goals. With its corporate headquarters in Albuquerque, New Mexico, Lakota Federal provides comprehensive environmental services, stakeholder engagement, pre-demolition surveys, and construction support to guide clients through regulatory compliance and deliver sustainable solutions.

Our team has nationwide experience supporting federal, state, local, and non-profit clients across a wide range of environmental compliance areas, including air quality, hazardous waste, stormwater, and site remediation for industrial and government facilities. We are experts in all phases of NEPA and specialize in natural resource studies such as aquatic habitats, fisheries, and wildlife.

- ANC 8(a) SDB Direct Award (DoD up to \$100M/\$25M in FedCiv)

SPECIALTIES

ENVIRONMENTAL COMPLIANCE | Navigating regulations and minimizing risk for defensible solutions.

Provide comprehensive environmental services including assessments, water, soil, and air sampling, as well as hazardous waste management to ensure regulatory compliance and ecological sustainability.

ENVIRONMENTAL REMEDIATION | Restoring land and protecting health through cleaner environments.

Deliver targeted environmental solutions through soil and groundwater remediation, air and surface water decontamination, and expert oversight of abatement processes.

NATURAL RESOURCES | Supporting biodiversity through expert aquatic, terrestrial, and wildlife biology services.

Provide comprehensive ecological services in aquatic and marine biology, terrestrial biology, and wildlife conservation to support biodiversity and environmental stewardship.

STAKEHOLDER ENGAGEMENT | Building trust and honoring voices to strengthen communities.

Offer specialized services in tribal consultation, public involvement, and strategic communication to support inclusive, transparent, and culturally informed project outcomes.

DEMOLITION & CONSTRUCTION SUPPORT | Minimizing impact and maximizing environmental integrity.

We clear the way for progress with a deep commitment to environmental accountability offering safe, efficient site solutions that protect people and prioritize sustainability, ensuring projects proceed safely and responsibly.
